III. Encourage residents to contact Committee members regarding Golf Club matters. (Mark reiterated the importance of the SCM Resident Advisory Committee and the oversight each committee member provides. Your role is crucial in facilitating communication between Conestoga and the SCM residents. Specifically, your oversight helps us to keep residents informed about the improvements we are making to the SCM golf experience, gather feedback on other golf course ideas, enhance our communications, and most importantly, listen to and address any concerns or suggestions from the SCM residents. Mark thanked the committee for their continued dedication and for helping us ensure a positive golf experience for all SCM residents.)

VI. Crossing Areas / Errant Tee Shots: **(Mark updated on the flashing crosswalk signs for the golf course road crossings. Conestoga, SCM HOA, and Pulte Homes have agreed to cover the upfront costs, despite these being City roads. These companies will fund the purchase and installation, after which the equipment will be deeded to the City for perpetual maintenance. This collaboration is a positive step for safety. We will continue working with all parties to complete the project. Mark also reminded the committee about the errant tee shots that happen occasionally on the golf course. It is unfortunate, indeed, but the occasional errant golf ball and the damage that sometimes results is a byproduct of living on a golf course. That's why the Sun City Mesquite CC&Rs specifically notify homeowners of this hazard (Section 11.2)**

VII. Closing remarks: **(Dan asked about the pace of play during our peak season and maybe blocking out specific times during peak season to help with pace of play. Mark and Rick told the committee this is already something we are doing. However, as we are always looking for new ideas, if anyone has any further suggestions on how we might optimize this or other strategies to improve pace of play during busy periods, please feel free to share them.)**

VIII. Adjournment: **4:01pm**
